

# Non-covered ICD-10-CM Codes for All Lab NCDs

This section lists codes that are never covered by Medicare for a diagnostic lab testing service. If a code from this section is given as the reason for the test, the test may be billed to the Medicare beneficiary without billing Medicare first because the service is not covered by statute, in most instances because it is performed for screening purposes and is not within an exception. The beneficiary, however, does have a right to have the claim submitted to Medicare, upon request.

The ICD-10-CM codes in the table below can be viewed on CMS' website as part of Downloads: Lab Code List, at
